

I agree whole heartedly agree with F.I.S.T cw group. In thier analysis of the code requirement. 5 w.p.m. for General class, and 12 w.p.m. for Amateur Extra. And more techical questions for ALL class licences. We don't need another Citizens Band, one is more than enough! Please!! Ham radio is a time honored hobby, C.B. is most definately not!! We didn't put all the time and effort to achieve our licenses for nothing. That would be like telling automobile drivers they don't need to pass a drivers license test to drive a car!. Wake up guys!!
